

Education4allSDGs Partnership

Role and composition of the International Steering Committee

The steering of the development, management and monitoring of the *Education4allSDGs* application is necessarily international in order to define an application that can be used worldwide, taking into account the many situations of education at the global level.

During the development phase, this Committee validated at all stages the overall terms of reference of the project, those of the International Committee of Experts, the final work of these experts and, at several times, the application project.

This Committee is composed of organizations providing institutional and/or financial support and/or expertise to this partnership. Its composition is as follows:

- SDG CHAMPIONS France, the project leader, chairs this Committee
- UNESCO which supports the project
- French stakeholders who support the project: French Commission for UNESCO (CNFU), General Commission for Sustainable Development, French Partnership for Water, Vincent Van Gogh College.

French observers are associated or kept informed:

- Ministries in charge of foreign affairs
- Ministry of National Education
- Ministry of Higher Education
- Ministry of Agriculture and Food Sovereignty
- French Development Agency.
